Part #	ADP-SIGM-140
MSRP	\$9.95
Compatible Firearms	S&W Sigma 9mm, .40 S&W

Compatible Tool	FSL or LRS
Weight	.06 oz.
Length	1.75 in.
Material	Glass filled nylon

LaserLyte reintroduces its most popular and best selling rail adapter ever. The New S&W Sigma mount now allows all Picatinny accessories to be mounted on the rail adapter. The mount clamps onto the frame using steel hardware and the glass-filled composite polymer rails will endure the toughest of duties. This works great for lights and especially for LaserLyte lasers. Simply slide mount on pistol rail and tighten mounting screws.

The Sigma Rail-Mount Adapter changes the grooves on the receiver into a Picatinny/Weaver type rail for easy mounting of any clamping flashlight or LaserLyte Laser System.
