

Center Mass Beam Pattern

## SPECIFICATIONS

<b>Product</b>	Sight Center Mass Red
<b>Part #</b>	CM-MK4
<b>MSRP</b>	\$164.95
<b>Compatible Firearms</b>	Fits firearms with Picatinny rails Universal Rail Mount
<b>Power Output</b>	635NM
<b>Programmable</b>	Constant-on, pulse, auto-off

<b>Material</b>	6061 T6 aluminum/glass filled nylon
<b>Batteries</b>	3 x 357 silver oxide batteries
<b>Battery Life</b>	*2.5 hours constant-on, 5 hours pulse mode
<b>Weight</b>	0.50 ounces
<b>Length</b>	1.10 in
<b>Width</b>	1.10 in
<b>Height</b>	0.93 in

\* Actual usage suggests 1-minute on, 1-minute off conditions

LaserLyte® gets shooters on target with speed and precision with their Center Mass Red Universal Rail Mount Laser Sight. Ideal for pistols, shotguns and rifles with standard Picatinny rail systems, the Center Mass laser makes shooters more effective.

The innovative laser system displays a ring of red laser dots surrounding a center aiming laser. The ring grows at about 1-inch per yard, about the same as a shotgun spread pattern. The Center Mass pattern gives the shooter a wide field of view for fast aiming with both eyes open.

The laser installs in seconds with included hardware and batteries, and users can adjust windage and elevation and replace batteries without removing the laser from the firearm.

Center Mass technology gives shooters of all skill levels a huge advantage for self-defense, training and target shooting.
