FOR IMMEDIATE RELEASE

LASERLYTE[®] OFFERS A NEW 3-YEAR WARRANTY ON ALL LASERLYTE[®] PRODUCTS

New Warranty Covers all LaserLyte[®] Products Sold New in the Past Three Years

COTTONWOOD, AZ (July 2012) - [LaserLyte[®]](http://www.laserlyte.com) has made effective immediately a new [3-year warranty](#) for all products sold new, including those products sold new for the *past* three years. The father and son owned and operated company designs and assemble all LaserLyte[®] American-made laser products in their home state of Arizona.

“LaserLyte felt that we owed this to our very loyal customer-base that have been supporting us for over 25-years,” Aaron Moore, Vice President of LaserLyte[®] explained. “Plus, with our advanced electronics and designs, there was no reason to offer anything shorter than a 3-year warranty.”

LaserLyte[®] has the most technologically advanced lasers that include user programmable modes of constant-on and pulse modes in most LaserLyte[®] lasers. An auto-off feature incorporated in most lasers automatically turns the laser off after six minutes to prevent battery drain.

LaserLyte[®] will repair or replace any laser model purchased new, including models purchased new in the past three years. Any replacements will be the most current model laser. LaserLyte's new, no-hassle 3-year warranty is just another way LaserLyte[®] thanks their loyal customers. For repairs or product questions, call 928-649-3201 to speak with a LaserLyte[®] customer representative.
